

Comprehensive Business Solutions for Human Capital Management

HR Solutions

Search, Contracting and Consulting

HR Solutions specializes in recruitment for the human resources field. We take the time to learn each client organization intimately before creating your tailored HR hiring strategy. Our comprehensive services are consultative by design and include:

- **CREATIVE SEARCH** - From the moment you partner with HR Solutions, your network of qualified professionals expands to include actively and passively searching candidates across industry groups, academic organizations, specialized databases and through trusted referrals.
- **CONTRACT STAFFING** - HR Solutions represents professionals who are HR contractors by choice, available for short- or long-term assignments. Whether you need a substitute for a regular employee, or additional support for acquisitions, open enrollment or recruiting spikes, HR Solutions is an authority in HR contract staffing.
- **HR CONSULTING** - Department startups, HR audits, HRIS implementation and other complex projects require skilled HR strategists. HR Solutions serves as your project management partner, defining your company's goals and developing timelines and deliverables. We then connect your business with an expert HR consultant who implements the program from start to finish.

HR Solutions partners with key alliances to provide complete solutions for your company. Together, HR Solutions, Secure Talent and HR Solutions International, Inc. are the key to comprehensive human capital management. The strategic three-way partnership allows clients to utilize all or some of the companies' services, depending on unique business needs.

Secure Talent

1099 Compliance and Complete Payrolling Services

Secure Talent understands that staying abreast of evolving 1099 regulations is not a core competency of many businesses. We team with your company to ensure all 1099's are compliant with current law, so you can continue to engage the highly skilled talent you need with compliance confidence.

Secure Talent provides complete payrolling services, including competitive benefits for employees such as medical, dental and financial services. We also serve as employer of record.

HR Solutions International, Inc.

Employee Engagement Surveys and Management Consulting

HR Solutions International, Inc. is a leader in employee engagement strategies, keeping the line of communication open in your company through third-party research. HRSI's customized surveys measure internal knowledge, attitudes and behaviors, and we then put processes in place that retain and motivate your employees through all-inclusive action plans powered by ActionPro™.

HRSI provides a myriad of management programs that unify your employees and create a solid teamwork environment. We serve as your exclusive consultant in the areas of performance management, team building, employee mentoring, and sexual harassment prevention.
